Fireside Chat with CDC Director and AMA Tue Dec 12th

During the fall and winter, germs are more likely to spread within the community and within healthcare settings. As a healthcare worker, you play a critical role in slowing and preventing the spread of viral respiratory infections, including flu, COVID-19, and RSV. CDC's [Project Firstline](#) can help you access the infection control information and resources you need to take action this respiratory virus season.

Don't miss the opportunity to hear from Dr. Mandy Cohen, Dr. Demetre Daskalakis, and AMA's Immediate Past Chair Dr. Sandra Fryhofer as they discuss vaccinations and other tools that can keep everyone safe and healthy.
